INTRODUCTION:

WAVETECH Computers (WTC) is a computer supplier and constancy firm, specializing in the supply of total information technology solutions for commercial and industrial companies. **WTC** was established in 1998 and is one of the leading firms in its field.

The managers of these firm posses many years' experience in the computer technology industry gained whilst working on great number of major computer supply and support projects.

WTC is able to offer all types of workstations and personal computer systems, peripherals, networks (LAN & WAN) and technical support from small units to large interconnected networks incorporating their well proven services.

Communication now a day becomes a very essential part of any IT projects. As a mater of fact, communication is the backbone of any organization business. Because of that our company had established a communication group. The duty of this group includes the following:

***Provide services in the following areas:**

- Wide area network or Intranet (WAN).
- Telecommunication networks & LAN.
- Wireless networks.
- TV System more 20 point's
- FULK Test.
- Audio System.
- CCTV System.
- Fire Alarm System.

We can do a turnkey projects in the previous areas, that is including studies, installation, after sales services, and importing all necessary equipment for any given projects in these domains.

WTC has been responsible for all engineering aspects from the design and layout of the customer's requirements to the final working implementations. It has been the Company's aim to stay in the forefront of computer technology and services. **WTC** has a continual program of skills and manpower development.

We are more than convinced that the computer and peripherals market is one of the fastest moving markets. Demand for such items will increase rapidly every year. Also, software products and technical support has to follow pace.

COMPANY STRUCTURE:

This company consists of a number of departments distributed among many sites.

4. COMMERCIAL DEPARTMENT:

The prime responsibility of this department is to purchase the computer parts and peripherals and to market them across the network of dealers.

STAFF & RESOURCES

No.	Name	Career	Position	Experience
1	Eng. Mohamed El-Macki El-Bakkush	B. Sc. in Computer Engineering, (Alfatah) Tripoli University (1996)	General Manager	19 Years
2	Eng. Ibrahiem Shellmani	B.Sc. in Communication Engineering, Manchester University (1989)	IT Consultant	26 Years
3	Eng. Khalid Mansour	High Diploma Tripoli (2004)	Commercial Manager	11Years
4	Abdulbaset Bebas	High Diploma Tripoli (1993)	Programming manager	22 years
5	Eng. Salah Bashia	B. Sc. in Electricity Engineering, (Alfatah) Tripoli University (1992)	Technical Dpt. Manager	23 Years
6	Eng. Mohamed Baryoun	B. Sc. in Computer Engineering, (Alfatah) Tripoli University (1998)	Technical Dpt.	17 years
7	Eng. Kamal ALRhebie	B. Sc. in Computer Engineering, Benie Walied College (1999)	Technical Dpt.	16 years
8	Eng. Mohamed Sharfedeen	B. Sc. in Computer Science AlKomes University (2000)	Technical Dpt.	15 years

List of Customers

No.	Customer name	Details
1	Air Malta p.l.c Ref : David Galea – Finance Manager Tel:- +218 21 3350579	Network Installation, Computer Supply ,Network Administration, Technical Support
2	Fega Werk	Network Installation, Computer Supply ,Network Administration, Technical Support
3	Nera Telecommunication Ref Abdulaziz Al-Fughee Tel : +218 91 3859016	Network Installation, Computer Supply ,Network Administration, Technical Support
4	Price Water House Coopers Abdssalam Al-Hamruny Tel: +218 91 3409735	Network & Tel sys Installation, Tech Support IGUARD Finger print Access Control, FM200 Fire Alarm System
5	Occidental Libya Oil & Gas BV Usama El-Basir +218 91 2202930	Installing Fiber to telephone Multiplexer between Oxy & GPTC to transfer 32 telephone lines & 2 internet connections from GPTC to Oxy Main Office.
6	Baker Atlas	Network, Tel sys & UPS Electricity Installation
7	Carrier	Wireless Network Installation & Technical Support.
8	Dagen	Wireless Network Installation & Technical Support.
9	Cobit S.A Oil Company	Wireless Network & Tel sys Installation, Tech Support
10	JOTUN Paints Libya	Network Installation R&M Cat 6 & Telephone System
11	Techno prom Exports troy (<i>Russian</i>)	Network Installation , Telephone System & Wireless Network Installation, Technical Support.
12	Techno Exports troy (<i>Bulgarian</i>)	Network Installation R&M Cat5e & Fiber Optic, for three buildings, (African Center C.I.D.C.A)
13	Al Asmarya Islamic University, Zliten	Network Installation, Computer Supplying
14	Yamama Couriers	Technical Support
15	Trucks & Buses Company	Network Installation 300 Nodes Cat5e & 8km Fiber Optic , for 18 buildings
16	U.N HABITAT	Network Installation & Supplying
17	L.B.C.D. Libyan Brazilian Company for Construction & Development	Computer Network & Electricity Installation, Fiber Optic & STP connecting more than 30-Buildings
18	ODTCJV Engineering Camp	For 88 houses : Network and TV System installation contains 6-Dishes & 1.5km Fiber
19	Verenexenergy Area 47	Network Installation & Technical Support Contract
20	Nabors Drilling	Network Installation & Technical Support Contract
21	Ranhill	Network Installation & Access Control
22	ODTCJV Tripoli New Airport	Network Installation more than 5000 nodes, 8Km Fiber Cable Installation , connecting 18-Buildings

No.	Customer name	Details
23	Mabruk Oil Operations	Fiber cable splicing & testing at Al-jurf offshore
24	RWE Dea	Network Installation, Fiber Splicing & Supplying
25	ODEBRECHT	Network Installation, & Fiber Splicing
26	Libyan Press	Network Installation & Wireless CISCO Aironet 1300 between Buildings
27	ATTAWFEEK Hotel 1.2	Network Installation Tel system, TV system, WIFI & Tech Support
28	ATTAWFEEK Hotel 3 Under Construction	Network Installation, Telephone system & TV system
29	RIBAS Hotel 1,2,3	Network Installation Tel system, TV system, WIFI & Tech Support
30	AL-Zaytwna Hotel	Network Installation Tel system, TV system, WIFI & Tech Support
31	Alkhayam Arabian Hotel	Network Installation Tel system, TV system, WIFI & Tech Support
32	BAET ALAMAN Hotel	Network Installation Tel system, TV system, WIFI & Tech Support
33	AL-SALEM Hotel Under Construction	Network Installation, CCTV system, Telephone system & TV system
34	Al-Mshket Hotel	Network Installation Tel system, TV system, WIFI & Tech Support
35	AL-Watan Al-Kaber Channel	Wireless Network & TV-System Installation
36	L.I.T.C. Libyan International Telecommunication Company	Network Installation, & Fiber Splicing
37	Biotechnology Research Center	Fiber Network Installation
38	ICRC (Red Cross)	Network & Fiber Installation, & Material Supply
39	LISCO (Libyan Iron & Steel Co.)	Fiber Diagnostic, Maintenance , Splicing, & Testing using FUJIKURA & FLUK DTX-1800 OTDR
40	SAFWA BUILDING Under Construction	Network & Fiber Installation, CCTV system, Telephone system, Fire alarm system, Intruder Alarm System & TV system

LIST OF TOOLS

No.	Tools	Details
1	FLUK DTX-1800 Cable Analyzer	For testing the following : - Cat 5e & Cat 6 Cables - Multimode Fiber Cables 50/125 & 62.5/125 - Single Mode Fiber Cables - Light Source & VFL
2	FLUK DTX-1800 OTDR	Single Mode & Multi Mode OTDR Maximum Distance 20KM Single mode
3	YOKOGAWA AQ7270 OTDR	Single Mode & Multi Mode OTDR Maximum Distance 100KM Single mode
4	FUJIKURA FSM-60S	Single Fiber Arc Fusion Splicer
5	Fujikura FID-25R	Optical Fiber Identifier
6	Fujikura One-Click Cleaner	For cleaning Fiber Connectors for Patch Cords & Patch Panels
7	Corning Installation Tool Kit	Fiber termination Tool Kit for Unicam Connectors
8	SPARO711 TOUCH STANDARD	For testing the following : - Satellite Signal (DVB-S(2)) - TV Network Cable (DVB-C(I) /DVB-T(2))
